SKILLS

- Languages:** C++, Java , JavaScript ,PHP
- Frameworks:** React.js, Node.js, Express.js, Laravel, Bootstrap
- Web Technologies:**HTML5 , HTML5, CSS3, REST APIs
- Database:** MySQL,MongoDB ,Mongoose
- Tools :** GitHub, Git ,VS Code , Postman
- Core Subjects:** Data Structures & Algorithms , OOPs , DBMS , OS , Computer Networks
- Soft Skills:** Problem-Solving, Adaptability and Quick Learning, Client Handling,

Work Experience

Freelancing | Full-Stack Web Developer (Sweeper Web) | LIVE Dec 2025 - Jan 2026

- Developed and deployed a full-stack service booking platform using **React.js, Node.js, Express.js, MongoDB, and REST APIs**, enabling seamless customer registration, booking, and service management.
- Integrated **secure payment gateway functionality**, database operations, and user authentication, improving transaction reliability and enhancing overall user experience. Implemented role-based admin dashboard with complete CRUD functionality.
- Optimized application performance and responsive UI/UX, contributing to a **30% increase in active users** and improved customer engagement after deployment.

PROJECTS

GAMIFY ECO-LEARNER | ENVIRONMENTAL EDUCATION PLATFORM |LIVE | GITHUB Mar 2026 – Apr 2026

- Developed a gamified learning platform aimed at making environmental education engaging and interactive through quizzes, study materials, and progress tracking features.
- Built a full-stack web application using React.js, Node.js, Express.js, and MongoDB, integrating educational videos and downloadable PDF resources to support self-paced learning.
- Implemented a real-time quiz system with instant scoring and feedback to enhance student participation

Tech : React.js, Node.js, Express.js, MongoDB, JavaScript ,React , YouTube API

TRAVEL APP | MERN TRAVEL MANAGEMENT PLATFORM | GITHUB Nov 2025 - Dec 2025

- Designed and developed a full-stack travel management application that enables users to organize trips, track expenses, manage itineraries, and document travel experiences in one centralized platform.
- Built a secure and responsive MERN-based application using React.js, Node.js, Express.js, and MongoDB, implementing JWT authentication, REST APIs, Cloudinary media uploads, and Progressive Web App (PWA) support
- Enhanced user engagement through features such as trip analytics, dark mode, place tracking, and mobile-friendly installation, delivering a seamless travel planning experience across devices.

Tech: React.js, Node.js, Express.js, MongoDB, JavaScript, JWT Authentication, REST APIs.

TRAINING

CodeQuest: DSA Summer Bootcamp Jun 2025 – Jul 2025

- Gained **hands-on experience with core Data Structures** such as arrays, linked lists, stacks, queues, trees, graphs, and hash maps using C++, applying them to solve real-world coding challenges.
- Strengthened understanding of **fundamental and advanced algorithms**, including sorting, searching, dynamic programming, greedy techniques, and recursion, with a focus on writing optimized solutions.
- Improved **problem-solving and logical thinking** by consistently solving medium to complex problems on platforms like LeetCode, CodeChef, and HackerRank during the training period.

CERTIFICATES

- | | |
|---|----------|
| Computational Theory: Language Principle & Finite Automata Theory Udemy Link | Aug 2025 |
| Master Generative AI & Generative AI tools Udemy Link | Aug 2025 |
| The Complete Java Certification Course Neo-Colab Link | Apr 2025 |

ACHIEVEMENTS

- | | |
|---|----------|
| BUILT AND DEPLOYED A CLIENT PROJECT THAT INCREASED ACTIVE USERS BY 30% THROUGH IMPROVED UI/UX | Apr 2026 |
| Solved 250+ algorithmic problems across LeetCode strengthening proficiency in Data Structures and Algorithms. | Nov 2025 |

EDUCATION

- Lovely Professional University** Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering CGPA: 7.14 August 2023 - present
